### Summary

Clips to hold the sunshades up in my Tesla Model 3

[Hobby & Makers](#) > [Automotive](#)

Tags: [sunshade](#)

I needed more clips to hold up the sun shades for my Tesla Model 3. I created this simple copy of the clips that came with the sunshades.

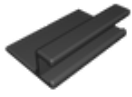

I printed them both flat (with supports) and standing up. Both orientations seem to hold up well. Photos include side by side with an original clip and the clips on the sunshield.

I suggest printing them with ABS, PETG, ASA or some other high temp filament as the car can get hot in the summer sun.

Printed

- MK4
- Overture Black PETG
