Summary

Toughbuilt reload utility knife drawer stand

3.00 hrs

1 pcs

0.28 mm

0.40 mm

PLA

100 g

Creality
Ender 7

[Hobby & Makers](#) > [Tools](#)

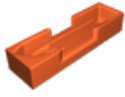

Minimalistic stand to store your TB reload knife and secondary mag in your desk drawer or in my case tool trolley for fast access and no rattle while moving.

I uploaded bare model but feel free to modify to your needs. Made myself one little taller with shallow tunnel under to slide in the case with spare blades and added holes so I can clip it with other tool cases for stability.

Print settings as you like, I did PLA, 150mm/s with 0.28 height and it came out pretty good for what it is.

Dimensions: 197mm x 55mm x 35mm (40mm with knife)
