Description: This 3D model is a child lock designed for the Hanviken doors of IKEA Besta cabinets. The model is comprised of two pieces, ensuring a secure and child-safe environment by preventing easy access to cabinet contents.

Key Features:

- **Compatibility:** Specifically designed for Hanviken doors of IKEA Besta cabinets.
- **Easy Installation:**
 - **Body Piece:** Installed using the same screws as the Besta push/pull door opener.
 - **Door Piece:** Installed using 3x12 countersunk screws.
- **Placement:** Install the door piece in the upper internal corner of the door, and the body piece in the first and second holes instead of the Besta push/pull door opener.

- **Robust Design:** Built to securely lock cabinet doors, keeping children safe.

Materials Recommended:

- PLA
- PETG
- ABS

Printing Instructions:

- **Orientation:** Print the body piece flat for maximum strength.
- **Supports:** Minimal supports may be needed based on model orientation.
- **Resolution:** Use at least a 0.2 mm resolution for optimal detail.

Applications: Perfect for childproofing your IKEA Besta cabinets, ensuring that your children cannot easily access the contents.

Note: Ensure all screws are securely tightened and that the lock mechanism functions smoothly before use.
