The PHOTO FRAME is made of two elements (front one and rear cover).

It the best frame for your desk to keep an eye on your pet!

There are files for 4 sizes of photos:

10cm x 10cm

9cm x 13cm

10cm x 15cm

13cm x 18cm

No supports needed. I used brim to keep my PLA sticking better.

It's good to print front first and then measure real diameter of back plate space. Back plate may need a bit of adjusting.
