Summary

Holder to store all items in a medicine cabinet

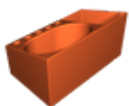

[Household](#) > [Bathroom](#)

Tags: [waterpik](#)

Holder/organizer for the Waterpik WP-500 Series water flosser. Specifically designed for the WP-560.

Printed in PETG, .6 nozzle, .2 layer height on an MK4. The tolerances are tight - the flosser attachments fit perfectly in my setup. However, even a .5mm variance could make them too tight. The F360 file is provided for adjustments.
