Summary

Sized to hold a Philips Hue LED Strip securely

[Household](#) > [Other House Equipment](#)

Tags: [mount](#) [ledmount](#) [ledstrip](#) [philipshue](#) [huelightstrip](#) [lightstrip](#)

A mount for Philips Hue LED strips. Sized to allow the LED strip to be simply pushed into place. The mount is intended to be attached to a surface with a single counter sunk screw.

Model is designed to be printed standing up for maximum strength. The hole for the screw uses a teardrop shape to avoid the need for supports and minimise the amount of bridging necessary. The width of the walls are mostly multiples of 0.4mm so it is easy to print with a standard nozzle.
