Summary

A multi fitting moderator / silencer with easy change adaptors

[Sports & Outdoor](#) > [Other Sports](#)

Tags: [airsoft](#) [airgun](#) [silencer](#) [airsoftaccessories](#)

A new moderator design that uses the “slide in” type one piece baffles.

This one is a little bigger than others being

- Diameter. 45mm
- Length. 195mm

It also comes with adaptors that can easily be swapped out to suit different muzzle threads.

- 1/2 x 20 UNF
- M14x 1 Right Hand
- M14 x 1 Left Hand

In addition you will need

- 2 off M3 x 4.7 x 6mm melt inserts
- 2 off M3 x 6mm - 10mm CSK socket head screws.

I did this one with green silk PLA for the baffle tube inside and Matt black PLA for everything else. The front cap screws in so you can make extra colour baffle tubes to suit your own models.

Supports for the Outer tube only all the rest are print in place.
