I use 4"x6" photo cases for most of my cable storage. I wanted a way to optimize their spacing within a gridfinity drawer.

Designed to fit 9 4"x6" photo cases in a 7x4.5 gridfinity space. Works well in Ikea Alex drawers. The .5 grid also perfectly functions as a spacer in the front of the alex drawers as the drawers are 7X12.5 gf spaces.

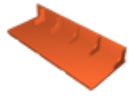

Also including a draft which holds a photobox in a 1x4.5 grid insert
