Tags: [organizer](#) [toolholder](#)

I made my version of the “ultimate toolholder for your 3D printer”!

Prints in 3 pieces; One base and the two lids.

It supports:

- 5x5cm wipes
- 65mm bottle of IPA
- 75mm metal scraper
- KNIPEX side cutter (or similar)
- A small trash compartment
- hex key
- ...and whatever else you want to fit in it...

My first CAD model so it might not be perfect... For the next version I would add dove tails to the trash compartment as well.
