Summary

Small and Large Logo and Fridge Magnet from the netflix show "Squid Game"

[Art & Design](#) > [2D Plates & Logos](#)

Tags: [game](#) [magnet](#) [fridge](#) [squid](#)

As it seems that everyone is hyped, I wanted to make a logo plate from the logo.

The logo is splited in multiple parts so you can print it without any multimaterial device or tool changer

For the fridge magnet i use 20 x 10 x 2 mm magnets from amazon. Here is the link:

[Neodym Magnete, Super Stark Neodym Viereckig Ziegel Magnete 20 x 10 x 2 mm, N52 NdFeB Rare Earth Permanentmagnet für DIY Building Craft Office \(40PC\) : Amazon.de: Küche, Haushalt & Wohnen](#)

I used Patex Super Glue to glue them in

Happy printing!
