Summary

just like the cap on the stock wheel but its for the f1 wheel by Thijs Gerritsen. must be printed with pla

[3D Printers](#) > [Accessories](#)

haven't printed to see if it fits I don't have a working 3d printer at the moment. my friend is printing it for me as a test come back in a few days to see if it fits. I can make other teams if requested (just comment) but not Mercedes. designed the logos and finalized in blender textured in tinkercad.

This remix is based on

Ferrari logo cap for f1 steering wheel for G920

by Useful3D

Logitech G29/G920/G923 F1 Style Wheel (Easy Print)

by Thijs Gerritsen
