Summary

This is an addition for the X exhaust cover. It works especially good with the camera holder for Kasa cameras

[3D Printers](#) > [Prusa Parts & Upgrades](#)

Tags: [cameramount](#) [cameraadapter](#)

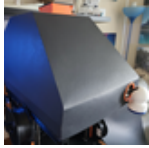

This adds an opening to the XL Exhaust camera cover. It works great in conjunction with this camera holder model:

<https://www.printables.com/model/759784-camera-holder-for-kasa-kc410s-camera-with-cable-ma>

Instructions:

Put it where it should go, draw with a pen around the inner outer rim, cut a hole, push it in, glue it in place and glue then a transparent piece of plastic in front to keep the air in.

This remix is based on

Prusa XL "Scrappy" exhaust cover
