Montreal Canadiens logo created with HueForge. You do NOT need a multicolor printer for this. Everything is done with filament swaps at set layers. Follow my profile for more team logos as I will continue adding more logos.

Print at 100% infill with a layer height of 0.08mm with a base layer of 0.16mm

Filaments Used:

PLA PolyLite Pro Blue Transmission Distance: 1

PLA PolyLite Wine Red Transmission Distance: 1

PLA PolyLite Pro White Transmission Distance: 5

Swap Instructions:

Start with Blue

At layer #9 (0.8mm) swap to Wine Red

At layer #15 (1.28mm) swap to White for the rest.
