### Summary

Vixen dovetail (100mm long) for Canon RF 200-800mm F6.3-9 IS USM lens

[Learning](#) > [Physics & Astronomy](#)

Vixen dovetail (100mm long) for Canon RF 200-800mm F6.3-9 IS USM lens. This attaches to the foot. I'm using it to connect my lens to a SkyWatcher SolarQuest solar tracking mount. You'll need one 3/8-16 x 1/2 UNC and one 1/4-20 x 1/2 UNC socket head cap screws to mount it.
