Ahoy there! When big papa K plundered the leftover bits of the Stellar League Deference Force from the big angry circle, he (allegedly) pilfered 200 Dodger units alongside. Arrr! Even though this peculiar setup for the Dodger ain't part of the official scrolls, methinks it be worthy of recognition. Behold this fanciful rendering, ready for yer printing pleasure, savvy? You can chart its course and detail its attributes as ye see fit. In me fanciful tale, the Ocean Vulpines fashioned a swashbucklin' Canadian edition of this contraption, so I've decked it out in a grand, ol' classic style with the mad max shoulder pads and the phallic hand. Yarrrr!
