Allegedly referred to by the great Aleksandr Kerensky as “the SLDF’s worst SRM carrier,” the 35 ton PN-11b Phainon debuted in 2762. Sometimes I make custom ‘Mechs for Battletech for fun, and sometimes I do little in-universe writeups for them. Not only did I make a backstory for this one, I also made record sheets and miniatures which you can find on Thingiverse. It’s all free to print on your 3D printer at home. You can find the backstory over on my gaming blog, [Fistful of Valkyries](#).
