Huge 28mm Alien People Dump; THIS IS FAN ART.

Here are a bunch of proxies for Colon Marines, Colonial People, United Weyland folks, American Yutani peeps, PMC deniable ops dudes and dudettes with different weapons.

Read between the lines because now that the mouse owns the queen and all her babies, we're in for better and worse than anything Ghamez Werkshoop can throw at us probly.

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at [Punkin' Figs](#). All of my 3D printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
