Just a fan work and a realization of an old dream I had when I was a kid to build a big 'ol army of spacefaring space nuns from 40kya in the future. These sisters love battle, that's for sure!

I really, really dislike the star nun novices and how they are represented with official releases, so I decided to make my own proxies for a full squad, because dammit, these laser nun rookies are supposed to be training for war, not for a video on a kinky fetish site!

Seemed like most of the Adepta ladies you can print are resin only, and that just won't do for us old farts tinkering on FDM printers still. This one was printed on an Ender 3!
