Just a fan work and a realization of an old dream I had when I was a kid to build a big 'ol army of spacefaring space nuns from 40kya in the future. These sisters love battle, that's for sure!

I needed some flamer nuns. I have more I'm working on, but this is the first batch.

Seemed like most of the Adepta ladies you can print are resin only, and that just won't do for us old farts tinkering on FDM printers still. This one was printed on an Ender 3!
