Summary

A cute mascot for the BigBox printer, by E3D. A cute transformer robot, that can store your E3D nozzles on the inside....

[Hobby & Makers](#) > [Other Ideas](#)

A cute mascot for the BigBox printer, by E3D.

A cute transformer robot, that can store your E3D nozzles on the inside.

Print the LittleBigBoxTobyBody_v01.stl, this is main body of the robot and contains hinges and locks to make it stay in box mode.

Print the arms and attach them to the sides.

Print the tracks (A or B version, choose the one you like the most), and attach them to the sides, and presto your Toby is done.

The folded stl's are meant for illustration and assembly help, not for printing.

All credits for the name go to my sister :D

Category: 3D Printing
