Needed more bases for characters for Five Klicks From The Zone, so I made these.

These print without supports or rafts.

If you haven't heard of Five Klicks From The Zone, it's made by the same team who made Five Parsecs From Home. If you haven't heard of Five Parsecs, definitely google it, because it's amazing. Both games are amazing.

I'm doing a playthrough of Five Klicks over on my [gaming blog](#).

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at [Punkin' Figs](#). All of my 3D printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
