I wanted to really bulk out my tabletop with some good modular ruined skyscrapers, so I built these pieces that can be printed without supports or rafts and assembled with glue.

Sally is from Punkin' Figs and is in the pictures for scale.

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at [Punkin' Figs](#). All of my 3D printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
