[gyroscopic](#) [europe](#) [capital](#)

European themed gyroscopic christmas tree ornaments.  
Made for the local school european club, the countries are represented by a landmark from each capital. Also included is a tree topper (print two copies and glue them together), a star (like the ones on the EU Flag) and a local landmark to represent our region (Madeira Island).

The smallest details might not be printable, if you want them just enlarge the model until the slicer can generate them.

**Update 2016-12-01:** Updated Bratislava, Budapest, Riga and Zagreb, due to issues with the meshes, also Zagreb wasn't manifold (thanks dtiger2k)

**Update 2016-11-26:** Added Ornamet-base.stl for anyone that wants to create their own gyroscopic ornaments

Category: Decor
