The latest mods from Ellie Valkyrie's garage! A bunch of salvaged armor bits to give your Gaslands cars the extra oomph they need to burn rubber around the table (or at least to look like they can.)

Prints without the need for supports.

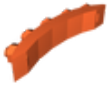

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at [Punkin' Figs](#), All of my 3D printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
