Tags: [wall](#) [collar](#) [mount](#) [wallmount](#) [cobra](#) [tactipup](#)

Allows wall-mounting of [Tactipup Dog Collars](#) or any harness using the COBRA Quick Release. I could only chain about three collars together before they became too long to hang in a closet, so I just did two per mount.

### Design

The buckle design I reverse engineered from the physical copy. The wall mount design I slightly redesigned from [thing:4938923](#) by [MakerPhill](#).

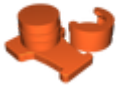

### Printing

No supports. I printed with HTPLA+. I inserted a color change at 0.6mm to get the text to pop a bit. I also included a modifier with 100% infill on the weak parts.

## Installation

Each mount requires (1) flat head screw.
