I felt like there was an extreme lack of miniatures specifically for Eclipse Phase, so I've been making some remixes for morphs I'd love to see in a game. This one, I see as being a sort of specialty morph engineered by a coreward zaibatsu drawing off of Japanese mythology to create an anthropomorphic fox body that specialists can sleeve into for aesthetic purposes (like bodyguarding a VIP who likes foxes.)

If you like the fox head please consider supporting the original creator by visiting the link that shows what I remixed this guy from.

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at [Punkin' Figs](#), All of my 3D

printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
