I felt like there was an extreme lack of miniatures specifically for Eclipse Phase, so I remixed a great low-poly model and added a bunch of sci-fi gear to him. Also sunglasses, because you gotta be super cool to run your stack on a primate morph, lol.

I think I might do more content for Eclipse Phase, because I think it's an awesome setting.

If you like this guy's face, pose, etc., please consider supporting the original creator by visiting the link that shows what I remixed this guy from.

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at [Punkin' Figs](#), All of my 3D printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
