Tessa Eisenherz as she appears when she was a Lieutenant Commander flying Seindrives with the TCGND during the events of The Cygnus War. In the first half of The Cygnus War, she has long hair, but it's a major plot point when she cuts it short, so I've included both versions here. I'll be releasing other versions of Tessa soon too, along with miniatures of the other pilots from the stories. This is the main character of the stories set in The Cygnus War universe. Highly recommended, you can pick up the first book "[Stealing Wings](#)" [here](#).

These miniatures are scaled for 28mm adventures in the sci-fi universe of your choice and prints without supports! Turns out great, even on an Ender 3.

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at [Punkin' Figs](#). All of my 3D printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
