Randito McKay, another hero from the D&D games me and the guys used to play back in high school. Randito was the main character run by my buddy Randy, who was my best friend for most of my life, and who sadly passed away in 2018. His character is hereby immortalized in some form now through the art of CAD and 3D printing.

Requires supports, but they're minimal and easy to peel off.

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at [Punkin' Figs](#). All of my 3D printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
