Contained herein you will find two raised bases for 28mm miniatures made to look like mounds of skulls of your fallen enemies. Also, I've included a textured base so you can stick your miniatures to it so they fit in better with the bone piles.

Other miniatures pictured (for scale) are available on Punkinfigs.com for only \$1 each. Search "Giant Oni Warrioreess" and "Sigyn Hammeress" on Punkinfigs or on Cults3D to find them.
