My goal with the Cyberfemmes is to make an army of bad-ass, realistic women in heavy powered armor. No slinky, objectified ladies here! No sternum-breaking boobplating or chainmail bikinis! Only certified armored femmes you can print and bring to the field of battle for some serious ass kicking!

When stealthy, precision operations in enemy territory are required to keep humanity safe, send in the Arachnyads. This Saboteur carries a magnetic explosive.

If you like my work and want to see (and print) more of it, please consider stopping over at my online miniatures store at (www.punkinfigs.com), All of my 3D printable releases are printed before release to insure that they print well even on a simple, starter FDM printer.
