It's said that Captain Cylina Zender and Fire Support Specialist Myria Oberholtz have seen hell firsthand a dozen times on a dozen infested worlds. Together, they've gone up against the Electro-Liches of Nastrond 7, and dealt with hive worlds and derelict starships overrun with meaty horrors. More at home on the battlefield than they are anywhere else in the Kyklos Commonwealth, these two sisters of slaughter will always be a force to be reckoned with.

This is the first pack of my Cyberfemme sci-fi soldiers, but I have dozens more I have designed and printed that I'm going to be releasing in waves soon. These releases will primarily be on my Patreon at: (<http://>

[www.patreon.com/eswynn/](http://www.patreon.com/eswynn/)) and on my store at: (<http://www.punkinfigs.com/>).

My goal with the Cyberfemmes is to make an army of bad-ass, realistic women in heavy powered armor. No slinky, objectified ladies here! No sternum-breaking boobplating or chainmail bikinis! Only certified armored femmes you can print and bring to the field of battle for some serious ass kicking!

If you like my work and want to see (and print) more of it, please consider supporting me on Patreon through the link above. All of my 3D printable releases are printed before release to insure that they print well even on a low-end printer like my Ender 3.
