Hardened by the terrible power of a great necromancer, these undead warriors stalk the crumbling halls of a profane temple, eager to carve up new adventurers foolish enough to come seeking treasure in such an arcane and dangerous place.

Contained herein, you will find one such horror which you can download and print to stalk your own miniature halls of doom. The other two are available through my store at [www.punkinfigs.com](http://www.punkinfigs.com) for just one dollar, or you can get them for free if you join my Patreon ([www.patreon.com/eswynn](http://www.patreon.com/eswynn).)

If you like my work and want to see (and print) more of it, please consider supporting me on Patreon through the link above. All of my 3D printable releases are printed before release to insure that they print well even on a low-end printer like my Ender 3.
