I needed some creepy, blobby, tentacly meat monsters for a sci-fi campaign and so I made a whole pack of them and put them up for sale on my site [www.punkinfigs.com](http://www.punkinfigs.com). The boss and it's guardian gun polyps I made freely available here on Thingiverse. Enjoy! If you remix them, let me know because I'm always looking for more meeples to introduce into my games.

So far, I've made only three packs. The boss, freely available here, the infected horror meeples and the infected horror robot meeples. More to come!

Thank you for your support.
