This box and the associated tokens were made to be compatible with the Highest Skies / Fantastic Quest RPG system, but they should work with most RPG systems as well. A free version of the rules set (entitled Fantastic Quest) is included in the downloads for this Thing. To purchase the full version of the Highest Skies RPG system, [click here](#).

Two different lids are included (one labeled "Highest Skies" and the other labeled "Fantastic Quest" but I would love to see your own designs as well. Each one has a flat, recessed spot on the lid where you can write the character name with a felt pen or put a paper label on with the character's name. Printing these in a color (or colors) associated with your character can really make them stand out.

The holes inside are big enough to fit standard-sized dice, with a larger spot in the middle for your character meeple or miniature. There's also

enough room for a small, folded character sheet to be put between the dice and the lid as well.

Simple +1 tokens are included as well. These can be printed in any color and are meant to create a tangible expression of the equipment that adds die-roll bonuses in the Highest Skies RPG.

EDIT: 3-15-2020: You're definitely going to want to print the lid with supports.
