I was recently inspired by DevonJones's Boss Door post (<https://www.thingiverse.com/thing:4135980>) and decided to make a minimalist take on the awesome sun door over there. This terrain set is made to be compatible with DutchMogul's Meepleverse. If you aren't familiar with it, you can find it on Ill Gotten Games' Patreon page: <https://www.patreon.com/illgottengames/posts>. It's amazing stuff, and it's the only terrain set I use (it and compatible bits) as I really dig minimalism in tabletop dungeons and board games.

I made these in preparation for the release of my first adventure module for my RPG system entitled "Highest Skies." You can find out more about Highest Skies on my Patreon: <https://www.patreon.com/eswynn/posts>
