I've designed this zip tie holder that uses PVC pipes to reduce printing time and plastic needed vs other fully printed designs. It uses 5cm diameter PVC pipes as tubes.

Printing:

No support needed  
infill - doesn't matter  
designed to work with 0.4 nozzle

### Print Settings

**Printer Brand:**

Creality

**Printer:**

CR-10

**Rafts:**

No

**Supports:**

No

**Infill:**

15

**Filament:** Plastspaw PLA blue

Category: Tool Holders & Boxes
