Tags: [am3](#) [zwo](#) [asiar](#) [am5](#) [tc40](#)

This model was designed in OnShape
All parts sliced with PrusaSlicer
0.20mm layer height with 0.4mm nozzle
15% cubic infill

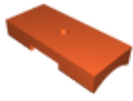

Print 2x strap pieces in TPU

Print bracket in PLA

To Assemble:

- 4x M3 brass inserts to attach the TPU parts.
- A standard camera mount screw was then used to attach to the ASI Air
- Use velcro to attach the TPU straps to the TC40 tripod
