Double Flashlight Holder for the Wrist (Star Trek: Voyager)

Do you remember the "cool" double beam flashlights from the TV series **Star Trek: Voyager**, which are attached to the wrist?

Well, why wait until the 24th century? This 3D model is a holder that allows you to attach 2 LED flashlights to your wrist/arm right now ;-)

Assembly

The holder is made of two parts. After inserting the flashlights, the holder is assembled using 6 M3 cylinder head screws (length: 8 mm). To attach it to your wrist/arm, 2 velcro cable ties (length: 25-30 cm) are used.

Products

- Flashlights: Semlos Tactical Flashlight ([Amazon Link](#))
- Velcro cable ties: Honyear Reusable Velcro Cable Ties ([Amazon Link](#))
- Screws: M3x8 DIN 84 A2 Slotted Cylinder Head Screws ([eBay Link](#))
