Needed a tray to store all the 12mm dice

2x2 Gridfinity tray

Printed this with a 0.6 nozzle, 0.4 layer height but a 0.4 nozzle and a layer height of 0.2 will work.

A model with magnets and one without.

Edit: 02/03/2024

Added a deeper tray (20mm), to hold D20 dice. In the image, the tray is holding 10x Dice

Two additional models, with and without magnets.
