Items you need:

- 2 x “4mm x 30cm” paracord.
- *4 x “3mm (diameter) x 2mm (thick)” magnets (neodymium magnets are recommended for better holding power).

*If you do not have magnets, I have included a 3D printed option
- [Connector](#).

Suggested print settings:

- Layer height 0.2mm.
- Infill 30%.
- Position the print in a way that the joining face is facing downwards.
- No supports needed.

For more interesting zipper pull charms, be sure to track this tag ([Zipperrific](#)).

We've even conjured up a little [home](#) for our zipper pulls – because they deserve a stylish rest when they're not out and about with you! And to top it off, each zipper pull features a sneaky slit perfect for showcasing photos, name cards, and more. They're not just zipper pulls; they're your new tiny, table-top pals!

NOTE

Most of our designs are printed and tested on a Prusa Mini and MK4, so tolerances may vary if you are using a different brand. While we strive for a smooth experience with our designs, we appreciate your understanding if tolerance issues arise.
