I designed this IKEA hack because i needed a quick and cheap (**but still stylish**) way to store my filaments in the house.

You only need one (or more) IKEA **Mosslanda** shelf!

It turned out to be useful and easy on the eyes so here it is for the community!

**3MF** files for Prusaslicer and Bambu studio/Orcaslicer with all the printing settings are included in the download package.

--

Please feel free to contact me to get further info on the model or for any printing issues.

And don't forget to check my [instagram](<https://www.instagram.com/ivanlisi3d/>) for more cool content!
