Tablet Handle

Suitable for various tablets, making holding tablets more convenient and comfortable.

The handle has a width of 30mm and is fixed to the back of the tablet with 3M tape, ensuring it is secure and durable.

There are three types of handles to choose from:
the standard model is suitable for most tablets.

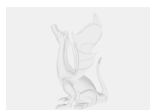

The mini model is designed for smaller screen devices similar to the iPad mini.

The REVO model, customized through scanning the shape of the hand, offers a more comfortable grip.

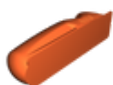

When applying the handle with 3M tape, adjust the distance carefully. The proper spacing can allow the tablet to stand upright on a desk.

All models require no support for printing.
