Summary

Enhanced Wide Version of the Anti Drag Cable Holder für Elegoo Neptune 4 Plus / Max (maybe suitable on Neptune 3 Series)

[3D Printers](#) > [Other Printer Parts & Upgrades](#)

This is a remix of <https://www.printables.com/de/model/722500-enhanced-anti-drag-cable-holder-clip-for-elegoo-ne>

I simply wanted a wider version of the cable holder because I also wanted the fan cable inside the cable tray. So the tray is now 3mm wider ;)

No need to print an extra clip - just use a cable tie
Might be suitable for the Neptune 3 series as well.

V2 has a cut-out so that the tray does not hit the stabilising bar at the top.

(but it has been decorated with a nicer logo)

No additional screw required: Just use the existing one, which is screwed in from the underside.

Printed from PLA or PETG with 0.2mm layer height as well as brim and supports.
