Summary

This is magnetic cover for Incra marking tool. My project to simple use and good enough covering.

[Hobby & Makers](#) > [Tools](#)

Incra it is great professional tool. Unfortunately I couldn't find any holder, cover etc.

Because this is very precise tool I decided to create simple easy to use magnetic holder. Magnets for holder and magnets for Incra are not visible. It looks simple and works great :)

It is necessary 10x4mm neodymium magnets x3

If you want to also magnet additional 12x3 or 12x4mm neodymium magnets x4.

and glue for example - cyanoacrylate
