Summary

Vase looking pencil holder.

[Household](#) > [Office](#)

Tags: [spiral](#) [pencilholder](#) [nosupport](#)

Printed at .28mm layer height in PLA 13 mm³ volumetric flow rate and 100% part cooling fans, 80% auxiliary fan after the first layer. 2 walls and 25% gyroid infill was used making it quite strong, infill may be able to be reduced but have yet to try.
