[dead](#)

A highly detailed Zombie hand coming out of the ground.

Model designed by my brother, Mateus Kurzhalts, and printed on the Original Prusa I3 MK3S.

The model was post processed and painted afterwards.

Just Print your own, half bury it on your yard and let the rise of the dead begin.

I hope you enjoy.

Happy Halloween!

Print instructions

Support is recommended on the little and ring fingers. Everything else can be printed support-free.

Model was printed with 0.15mm layer height and took approximately 16 hours.

Infill was lowered and speed was raised for the base part.

Model is 205mm height and was printed as a single piece.
