Summary

Cable tie (Ziptie) holders for cable management

[Household](#) > [Other House Equipment](#)

Tags: [organizer](#) [cable](#) [ziptie](#)

I have created a line of cable tie (Ziptie) holders that are specifically designed for effective cable management. These holders are equipped with conveniently placed screw holes, allowing for easy installation. Additionally, for added versatility and a hassle-free experience, you can also opt to use them with 3M double-sided tapes, eliminating the need for screws altogether.

Print Settings:

PLA or PETG

0.2 mm Layer Height

No Supports

Update:

03/19/2024 - STEP file added

06/07/2026 - I could create many models like this but instead I am in Internet jail.
