Modern and fun Easter Egg with bunny ears. Easy print and great for spring/easter decoration.

Large egg has a big enough hole to fit a tea light, and when you used a light or transparent filament you will be able to see the light shine through the model. The large egg is 193mm tall and small egg 135. Both models are hollow to save on filament. Print the models 1 wall thickness and with 0% infill.
Modern easter egg decoration. Large egg is compatible with tealight (use light or transparent filament in this case).
