This is a remix of [aardimus'](#) excellent [Bokoblin Chest](#) and [8u9o's](#) [SD Card Box](#). I merged the models and tweaked everything so they fit and work together nicely.

After printing, thread a piece of wire through the hinges to make them work. I like to use thin garden or craft wire, but a paperclip that's been bent straight should also work fine.

In addition to the single-color version, there's also a painted multicolor version.

This remix is based on

Bokoblin Chest Cartridge Holder
